## ADVANCE OF THE JAPANESE

### REPORT OF FRIDAY'S BATTLE NEAR LIAO YANG

**Russians Still Hold Positions After Hard Fighting—Japanese Continue to Capture Fortified Points at Port Arthur.**

Liao Yang, Aug. 27.—Kuroki has joined forces with Oka in an attempt to cut the Russian line east of Liao Yang. The battle of the 25th raged along the eastern front. A strong Japanese force attacked the Russian positions at Miao pass, eleven miles east of Anshanhan, and at Sandai and Begow Dugow, twelve miles southeast of Anshanhan. Nine batteries of six guns each bombarded the Russian positions. At these points the combat repeatedly developed into hand to hand fighting. The Russians stubbornly held the outposts the whole day, falling back on their main position at night. The chief artillery engagement was in front of Lian-dian-shan, the Japanese concentrating the fire of ten batteries and simultaneously advancing on Torkin-shan, four miles southwest of Lian-dian-shan, but they were arrested by Cossecks, who were afterward reinforced by infantry and artillery.

The Japanese resumed bombardment early Aug. 26, devoting most of their attention to Lian-dian-shan. Russian field guns were very effective. They dismantled several Japanese guns, mostly mounted in place.

**RUSSIAN REPORT.**  
St. Petersburg, Aug. 27.—The first battle of what may be regarded as the general advance of Japanese on Liao Yang was fought Aug. 26 with the result that the Russians at close fighting still held positions and had inflicted great loss on the Japanese, completely dismantling several batteries which attempted to bombard their main position at Lian-dian-shan. The Russian losses altogether were 1,450 killed or wounded.

A long official telegram has been received at the war office, but it does not give a hint of what is transpiring to day. It is more than probable, however, the Japanese have resumed their attack on Liao Yang. Silence on this point of special dispatches filed at Liao Yang this morning rather confirms this view.

The hottest fighting occurred in the valley of Lan, a small tributary of the Tatse, around Tseowong. The Japanese had the advantage of a mountainous country, advancing along a ridge extending from Taitan-shan to Sian-shan. The latter place is situated on a high road ten miles southeast of Liao Yang. Possession of this point would render Lian-dian-shan and Anping untenable. It is not improbable Kuroki will, therefore, repeat his attack in this direction.

The Japanese advance was characterized by the greatest boldness and aroused belief in military circles that either Kuroki has received considerable reinforcements or Kuroki has sent a greater portion of his army north, leaving only a couple of corps at Liao Yang.

### RUSSIAN CASUALTIES.

St. Petersburg, Aug. 27.—Russian casualties are placed at over a thousand in the report of Kurapatkin relative to fighting around Liao Yang yesterday. The Japanese sustained serious losses, while twenty-four of their guns are reported put out of action. Kurapatkin reports fighting the 26th was in all parts of the theatre of operations, the heaviest being east and southeast of Liao Yang in the vicinity of the Liao river and at Lian-dian-shan.

### REPORTS FROM PORT ARTHUR.

Chengfo, Aug. 27.—The latest reports received from Port Arthur are to the effect that the Japanese in their attack the night of the 25th captured the point, midway between Tarkushan and reduced another fort immediately east of the railway. The Russians lost considerably before they were compelled to release the fort.

Confirmation has been obtained that Japanese drove Russians from their position at Lousia bay, prior to which Japanese numbering five hundred penetrated into a fort situated on the highest hill of Tarkushan. It is also confirmed Japanese silenced a small fort near Golden hill.

### RUSSIAN CRUISER.

Saigon, French Indo-China, Aug. 27.—The Russian cruiser Diana, which arrived here the 25th with a shell hole below the water line received in the night battle of Port Arthur Aug. 10, has not received instructions from St. Petersburg to dis-arm or repair her damages, which are slight. The Japanese shell killed an officer of the Diana and three men and wounded twenty-three others. The cruiser tried to reach Shanghai, but encountered some Japanese torpedo boats. The latter discharged nine torpedoes without effect on the Diana. Officers of the cruiser declare Stoesel will never surrender Port Arthur. When the Diana left the harbor Stoesel had 40,000 men.

### A SECOND ARMY.

Berlin, Aug. 27.—A Telegraph St. Petersburg dispatch says Russia has determined to assemble a second great army in Manchuria, consisting of three or four corps, with general headquarters at Mukden. The object of this step is to meet the situation that will arise should Port Arthur fall.

## WEST VIRGINIA REPUBLICAN

### CONSIDERED SAFE BY SENATOR ELKINS

**Senator Fairbanks on His Way to Vermont, Where He Will Speak Monday—Sheehan Discusses Situation With Parker.**

New York, Aug. 27.—Senator Elkins came to New York to day from West Virginia and informed the members of the Republican national committee that his state was as safe for the Republican ticket as Pennsylvania.

### FAIRBANKS GOES TO VERMONT.

New York, Aug. 27.—Senator Fairbanks of Indiana, arrived in New York to day on his way to Vermont. He left at midnight for Boston and Monday afternoon he will speak at White River Junction, Vt. Fairbanks had a long conference with Chairman Cortelyou and Senator Scott of the national executive committee to day and gave them his views of the political situation in the west and more especially in Indiana, where he has been for several weeks. The campaign managers seemed to derive great satisfaction from the statement of Fairbanks, although they would not discuss the nature of the information received.

### PARKER AND SHEEHAN.

Boonville, N. Y., Aug. 27.—Judge Parker to night had a long talk with William F. Sheehan, chairman of the executive committee of the Democratic national committee, on the political situation and prospects in New England. What Sheehan told Parker could not be learned, but Sheehan has expressed himself as greatly encouraged by what he learned of the situation in nearly all the New England states, especially Massachusetts.

### TRIBUTE TO PRESIDENT.

Oyster Bay, N. Y., Aug. 27.—Capt. Joseph H. Parker, of New York city, one of the survivors of New York's famous regiment of artillery, "The Dandy Fifth," called on President Roosevelt this afternoon and presented to him a handsome engraved copy of resolutions adopted by the survivors of the regiment. The resolutions, which pay tribute to the president for his "deep interest in and for the regiment, welfare and comfort of the surviving soldiers and sailors who helped to have the union," pledged him the influence and votes of the regiment's surviving members and "bespeak for him the support of every veteran soldier and sailor."

### SENATOR LODGE MAIN SPEAKER.

Nantasket, Mass., Aug. 27.—United States Senator Henry Cabot Lodge was the principal speaker at the Republican ratification meeting. In the course of his speech Lodge declared the Republican party believes in reciprocity that will enlarge this country's markets and that President Roosevelt "is in perfect accord with reciprocity in its broadest sense."

### WILSON IN VERMONT.

Randolph, Vt., Aug. 27.—Secretary of Agriculture Wilson continued his campaign through Vermont with an address here to day on national issues, during which he denied the charge which he said was made by former Senator Hill that President Roosevelt promised when taking the oath of office at the death of President McKinley not to run for the presidency at the end of his term. Wilson said he was present at the time as a member of McKinley's cabinet and he was very emphatic that Roosevelt made no such statement. Wilson also discussed the tariff issue.

### WISCONSIN MIX UP

#### Nominees for Presidential Electors Brought Into Contest Before the Courts.

Milwaukee, Aug. 27.—Announcement was made to day that Fred C. Ozens and Fred W. Corde, two presidential electors nominated by the La Follette state convention will intervene in the supreme court, the contest instituted by the anti-third termers Aug. 9 for the purpose of establishing what was the regular Republican state convention. Lorenz and Corde will intervene, submitting answers to the petition of the anti-third termers presented to the supreme court. It is understood they will ask the right to be made intervening defendants in the action, presenting their rights for places on the regular Republican ticket. The importance of the move is readily seen when it is considered that in this proceeding the nominees for presidential electors will be brought into the contest before the courts for the first time, the proceeding thus far having involved only the state candidates on the La Follette and Cook tickets. The proposition of intervening, anti-third termers claim, will mean nothing more than a monstrous mix up that will be very difficult to disentangle.

### KILLED BY AUTOMOBILE.

Springfield, Ohio, Aug. 27.—Edwin W. Hagar, president of the Xenia strawboard works, was killed to night in an automobile accident. His body was found under the machine, his neck broken.

### BANK CLERKS.

St. Louis, Aug. 27.—Bank clerks to day elected officers as follows:  
Chairman—Alfred M. Barrett, New York city.  
Vice chairman—E. W. Finck, St. Paul.  
Secretary—George E. Allen, New York city.  
Treasurer—Fred A. Cradall, Chicago.

## PISTOL SHOOTING

### Marksmen Who Made High Scores Are Entitled to Medals and Cash Prizes.

Fort Riley, Kas., Aug. 27.—The national pistol competition was the program at the national range for small arms competitions at Fort Riley to day. The possible score for to day's match was 200. The five marksmen making the highest scores and who are entitled to participate in the distribution of medals and cash prizes are: Sergeant M. Corry, 1 troop 5th U. S. cavalry, 230; gold medal and \$25 cash.  
First Lieut. S. R. Sawyer, inspector of small arms practice, New York N. O., 220; gold medal and \$25.  
Lieut. Jens E. Steele, fourth U. S. cavalry, 220; gold medal and \$25.  
Capt. H. Deakney, U. S. engineers corps, 220; gold medal and \$25.  
Lieut. J. G. Hannal, tenth U. S. infantry, 220; silver medal and \$15.  
This finishes the national rifle and pistol competitions for this year.

### ILLINOIS AN WON.

Omaha, Aug. 27.—H. R. Fletcher of Galesburg, Ill., tennis player, to day wrestled from Frank L. Eberhardt, of Salina, Kas., the tennis championship of the middlewest in a closely played and hard fought five set match. Both men had been pitted against each other in the doubles and the Galesburg man has shown himself to be a fit antagonist of the champion. Fletcher won by reason of his greater ability. He showed signs of tiring near the finish, but throughout the five sets he saved his strength by letting the hard ones go and making the best of his opportunities at the net, where he clearly outclassed his opponent.

### CAMPERS POISONED

#### Nine Made Violently Sick by Eating Veal Pie.

Iowa City, Iowa, Aug. 27.—Nine persons were poisoned by eating veal pie made from canned veal at Camp Elmer on the Iowa river. They are: Mrs. H. H. Abrams and Louisa Abrams, wife and daughter of Rev. Mr. Abrams, a temperance agitator; Mrs. A. S. Schimley, Nellie Schimley, Edna Cozine, Albert Lee, Roy Lee, Thomas Lichey and Elizabeth Herscher. All were violently ill, but will recover.

### MINING CONGRESS.

Portland, Ore., Aug. 27.—The seventh annual session of the American mining congress ended to day after electing a board of directors, which convened immediately thereafter and elected officers with the exception of secretary. Among the directors named are E. H. Buckley, Missouri; George E. Dossey, Nebraska; Judge J. H. Richards, of Idaho, was re-elected president. The action of the congress in selecting Denver as permanent headquarters of the American mining congress and El Paso, Tex., as its next meeting place was confirmed by the directors.

### MISS EVERETT WON.

Chicago, Aug. 27.—Miss Frances Everett of Exmore to day won the women's western championship by defeating Miss J. Anna Carpenter 1-up on the Glenview golf grounds.

### BANK STATEMENT.

New York, Aug. 27.—Loans, decreased \$117,000; deposits, decreased, \$2,267,700; reserve, decreased, \$1,800,000; surplus, decreased, \$1,247,675.

### DEATHS.

London, Aug. 27.—Very Rev. S. Reynolds, dean of Rochester, since 1887, died this morning of heart disease, at Rochester, aged 85.

### SISSETON, S. D., AUG. 27.—William Fitzpatrick has been held guilty of the murder of M. H. Hanson by verdict of the coroner's jury and is lodged in jail here.

The evidence showed that Fitzpatrick attacked Hanson while the latter was in a drunken stupor and killed him with blows over the head. The murdered man recently fell heir to an estate of \$119,000. Arthur Jordan, a companion of Fitzpatrick, has also been jailed for complicity in the crime.

### CARPENTERS WORKERS.

Buffalo, N. Y., Aug. 27.—The garment workers to day elected T. J. Rehears of Chicago, president; A. B. Large, Cincinnati, secretary. A resolution was passed requesting all national and international labor organizations to compel their members to wear union made clothing.

### STAFF FOR SAN FRANCISCO.

Chicago, Aug. 27.—Three Chicago commandants and the grand commandery of Illinois started to night on a pilgrimage to San Francisco, where the triennial convocation of the Knights Templar will be held next week. Four special trains departed to night, another will leave to morrow night and Wednesday next another special will depart with the cream of the drilled knights of the state, who will contest for the rich prizes offered.

## ARTFUL WON THE FUTURITY

### DURYEA'S HORSE CAPTURED \$50,000 RACE

**Time Made the Fastest on Record for the Stake—Tradition Was Second and Synony Third—Immense Crowd Present.**

New York, Aug. 27.—Artful, a brown filly, bred by the late William C. Whitney and bearing the colors of Herman B. Duryea, to day won the \$50,000 Futurity at Sheepshead Bay. Tradition, bred by James B. Haggin, running in the name of Sidney Paget, was second, while Synony, from the stable of James R. Keene and bred in England, finished third. The time for the six furlongs of the course was 1:11 4-5, the fastest on record for the stake. An immense crowd was present. In the betting ring the struggle of would-be placers was tremendous to place their money and to secure best odds on their favorite.

A few minutes after 4 o'clock the horses were lined up for the start. There was quite a delay at the post, owing to the size of the field, but after a few moments Starter Fitzgerald lined the 2-year-olds up and sent them away. Synony, with Redfern up, was on his toes as the barrier snapped and got the rail. Artful got away well and reeled head and head with Synony for three-eighths of a mile. Tanya and Tradition were third and fourth and the other twelve were bunched behind them. Redfern seemed to have the race at his mercy, but the light-weighted Artful never lost an inch, and as they rushed past the half-mile post Synony began to tire. Hilderbrand, quick to see his advantage, began to overtake the fleet filly. He crawled up and as they passed the five furlong pole he was lapping Synony's saddle. The neckers toward the finish and it was plain to be seen that the great son of Melton had run his race. Tradition worked like a demon on the last stretch and succeeded in getting in second, passing Synony. Artful in the last seven hundred yards gained greatly and passed under the wire in front. Tradition was a short head in front of Synony. Time, 1:11 4-5.

To day's race was worth \$54,200, divided as follows: Winner, \$43,500; second, \$4,917; third, \$2,800; fourth, \$1,983. The winner (Artful) is owned by William C. Whitney, \$2,000; nominator of second horse (J. B. Haggin), \$500; nominator of third horse, \$500.

American breeders were highly pleased over the outcome, as Artful is purely American bred, while the dam of Synony was imported by Keene while in foal to the splendid sire Melton and in his veins flows some of the blood of the most famous derby winners.

### USED A SHOTGUN

#### Wife of Chicago Saloonkeeper Disperses Mob, Badly Injuring One Man.

Chicago, Aug. 27.—A serious riot occurred to night in front of Ignatz Hornatky's saloon on Ada street. Several men who were claimed by a crowd of strikers to be nonunion men were pursued along Ada street and in order to escape the mob they ran into the saloon. The saloonkeeper barred the door and refused to admit the mob. They at once smashed all the windows in the place and breaking down the doors rushed in and demanded that the saloonkeeper give up to them the nonunion men. These had escaped by the back door and while the saloonkeeper barricaded himself behind the bar his wife ran upstairs and returned with a shotgun. She commenced to fire as soon as she re-entered the room and her first shot took effect in the shoulder of Peter Wisor, who was leading the mob. The crowd of once fled from the place, carrying Wisor with them.

Hornatky barricaded the doors and windows to the best of his ability and the mob after retreating a short distance returned to the attack. Mrs. Hornatky, with her shotgun reloaded, took her post in the doorway and stood waiting for the mob when a wagon load of police came tearing around the corner in response to a riot call that had been turned in. The officers at once charged the crowd and dispersed it, capturing nine men. Wisor is seriously hurt.

### GAS PLANT EXPLOSION.

Cass Lake, Minn., Aug. 27.—An explosion of a gas plant this evening wrecked a building occupied by Rivard & Wolf as a saloon. Rivard was taken from the ruins probably fatally injured. Several others in the saloon when the explosion occurred, are unaccounted for.

Later word and a man named John Johnson were taken from the basement, badly burned. Calls for help from two others have been heard by the rescuing party, but they have not yet been reached.

### SNOW IN ITALY.

Rome, Aug. 27.—A heavy snow has fallen on the Apennines, where it has already reached the depth of five inches. The temperature is very low.

## PEACE PROPOSITION

### Offered Packers by Strike Leaders—Teamsters May End Their Strike.

Chicago, Aug. 27.—Members of the national executive board of Amalgamated Meat Cutters and Butcher Workmen began to arrive to day preparatory to holding a meeting which it is generally believed will result in some stop looking toward termination of the strike.

"No stop of any importance will be taken until formal action is taken by the board," said President Donnelly.

The peace proposition to be handed to the packers formulated by the allied trades conference board is understood to be a simple proposition to return to work without prejudice as demand for labor at plants warrants and to leave all questions of wages and working conditions to arbitration.

"Meet Monday and take a vote on conditions," is the substance of the telegram which Cornelius P. Shea, chief of packing house teamsters, to day sent to his men in Chicago. This is construed by some to mean Shea is desirous his followers elect whether or not they shall continue on strike at the stock yards. To day the teamsters abandoned their picketing.

The meeting of the executive council of the butchers' union has been set for to morrow night instead of Monday as at first intended. It is denied strenuously by officials of the local unions that the strike will be called off.

Alfredman Cayne, in whose ward a large part of the stock yards is located, tried this afternoon to arrange a meeting between the strikers and packers, but failed. He was informed by the packers that they had no intention of holding conferences with the strikers at any time.

The alderman after leaving the packers said that in his opinion the officials of the butchers' union could do nothing but call the strike off.

### MAKE NEW RECORD

#### Chicago Men Travel in Automobile to New York in 72 Hours and 40 Minutes

New York, Aug. 27.—J. A. Ellis and A. G. Schmidt have succeeded in making a new automobile record between Chicago and New York. They covered the distance in 72 hours and 40 minutes, beating the former record of 73 hours and 24 minutes. This is Mr. Ellis' first successful attempt to break the record. Except for storms and consequent bad roads, Ellis is convinced he could have reached here fifteen to twenty hours sooner. He left Chicago at 2 a. m. Aug. 24 and arrived at New York on Aug. 27 at 11:40 a. m. To day.

### BROKE RECORD.

Aurora, Ill., Aug. 27.—Jed Newkirk, of Chicago, in the three-mile race at the Aurora auto meet to day broke the world's record for a mile on a half-mile track, making the distance in 1:12 3-4. The former record, made by Oldfield at Omaha last Tuesday, was 1:13 3-4. Newkirk drove the three miles in 3:45.

### MADE A CONFESSION

#### One of the Murderers of Corporal Clark Tells of Crime and Implicates Five Others.

Athens, Ohio, Aug. 27.—A telegram was received here to night by Prosecutor Foster from Captain Newcomb at Fort Sheridan, stating that Private Galligan, Fourteenth United States artillery, now at the fort, had made a confession implicating five additional members of the battery in the killing of Corporal Clark during the recent military maneuvers here. Newcomb says the men have been arrested. According to the information in the telegram, Galligan says the affair was premeditated and that while it was not the desire of the battery men to commit murder they were prepared for trouble and with the avowed purpose of releasing Private Kelly of the battery, who had been beaten into insensibility by several members of the provost guard.

### Dented Furniture.

To take dents out of furniture wet the dented part with warm water, fold a piece of brown paper five or six times, soak it and lay it on the place. Apply on that a hot flatiron (if the moisture has evaporated, if the bruise is not gone repeat the dose. After two or three applications the dents or bruises will be raised level with the surface. Afterward polish as usual.

### Dry Soap and Candles.

Candles burn better and more slowly if they have been stored in a dry place six or seven weeks before using. Soap will go twice as far if it is well dried. It should be cut into small blocks and these arranged in tiers, with spaces between to allow them to dry.

### Keeping Pickles.

Pickles should be kept in stone or glass jars, never in glazed earthenware, on which the vinegar acts dangerously. A wooden spoon must be used when making pickles and no metal allowed to come near them.

## SUCCESSFUL ASCENSIONS

### MADE BY AERONAUTS AT THE WORLD'S FAIR

**Contest for Prize of \$5,000 Offered by Louisiana Purchase Commission—Start for Washington, D. C. in Balloons.**

St. Louis, Aug. 27.—With hardly a cloud in the sky and against a light east wind, George C. Tomlinson, of Syracuse, N. Y., and Prof. Carl Meyers, of Frankfort, N. Y., contestants for the \$5,000 prize offered by the Louisiana Purchase exposition to the aeroman who comes nearest to reaching the Washington monument at Washington, D. C., made successful ascensions to day at 5 p. m. The balloons gently inclined toward the west as they ascended and then, suddenly striking a heavy current of air sweeping from the east, simultaneously headed due west at considerable speed. The balloon was visible for thirty minutes and then disappeared from view in the western sky. Both were stocked with provisions for two days. Each balloonist carried with him carrier pigeons which will be released periodically enroute and convey messages to the world's fair grounds.

Both balloons were reported northwest of St. Charles at 6:30. At that time Meyer's balloon landed, but Tomlinson's had taken an easterly course and was traveling rapidly.

#### Marshall Field Heaviest Tax Payer in United States—Virginia Couple Celebrate 50th Wedding Anniversary

Carlinville—The Flanagan & Biedenwas company of Chicago have brought suit against the congregation of the First English Lutheran church of this city for \$200 alleged to be due them for an art window placed in the above named church on order of the Ladies Aid society. The society ordered the window and claims that it was not up to the contract. The firm claims that the window in question was exactly what the society ordered and have filed a mechanic's lien on the property through their attorneys, Attorney & Rives. The matter will come up for trial at the September term of the city court.

Chicago—Marshall Field is the heaviest taxpayer in the United States. Forty million dollars even is the assessed value of Mr. Field's taxable property, real and personal, in Chicago. It is the estimate of the board of review. Mr. Field's real estate assessment is \$30,000,000. Next year he will pay taxes on an additional million dollars' worth of real estate. All of this property is in Chicago and all Mr. Field's taxes go to the support of Illinois, Cook county and Chicago. These facts were brought out before the board of review Friday when a representative of the wealthy Chicago merchant applied for and obtained a reduction of assessment upon Mr. Field's individual personal property from \$2,500,000 to \$2,000,000.

Virginia—Mr. and Mrs. John Caywood Friday celebrated their fifty-first wedding anniversary at their home north of this city. They have resided on a farm in this county ever since their marriage and have ten children, all of whom were present at the anniversary celebration. The children are Mrs. Sarah Hobbs of Sallora, James S. Caywood and Mrs. Cora Seymour of Jacksonville, R. B. Caywood of Arenzville, Allen Caywood of Chandlerville, Mesdames Stewart Reid and John Cooper, Miss Bertha Caywood and Stephen Caywood of this city.

Shelbyville—A proposition to consolidate Greenville college with other Free Methodist colleges and schools in certain territory has been made to President Whitcomb and the college has been offered an splendid sum—equivalent to \$100,000—to move to another territory and merge with other schools. Evanson is the city that wants the college and has offered a building fund, a building site and an endowment fund.

Alton—A bald eagle, twenty inches tall and measuring nearly three feet from tip to tip, was caught alive on the bluffs above the city by Samuel Williams and Edward Yocum while they were hunting. The eagle was stunned with a rock thrown by one of the men. It will be placed on exhibition here, being the largest bald eagle ever seen in this section.

Springfield—The local Young Men's Christian association is at the present time carrying forward a very unique campaign for funds with which to erect a new building on South Seventh street, opposite the Lincoln library, the cost to be \$75,000. The committee on subscriptions have passed the \$25,000 mark, nearly all of which is in small amounts. Several large gifts are assured when it can be shown that the public at large have done their part. A building such as is proposed will be a credit to the city and will rank among the prominent edifices for which Springfield is noted.

#### GIVEN A BANQUET.

La Crosse, Wis., Aug. 27.—The rivers and harbors committee of the house of representatives arrived here this evening en route to St. Louis. Members of the party were banqueted to night. The trip down the Mississippi will be resumed tomorrow morning.

### GOV. YATES CHANGES RESIDENCE

Springfield Journal: Governor Yates has decided to make his home in Springfield at the expiration of his term next January, and his decision not to return to Jacksonville has considerable political significance.

He is already an avowed candidate for United States senator against Senator Shelby M. Cullom in 1907, and by living in Sangamon instead of Morgan county he will make the fight directly in the home of his opponent.

The Sangamon county committee as now constituted is friendly to Governor Yates and should be successful in keeping his friends in power it will mean a blow to Senator Cullom who has usually controlled the party machinery here.

The governor will have an opportunity during the legislature next winter to cultivate the hold over senators in anticipation of the fight which he and his friends will wage from the start.

#### PLEASURE PARTY WILL VISIT FAIR.

Springfield, Aug. 27.—Mr. and Mrs. C. M. Tinney will be hostess to a delightful party to St. Louis. Through the courtesy of the Illinois fish commission, the steamer "Illinois" has been placed at Mr. Tinney's disposal. The party will meet the boat at Beardstown this evening and proceed to St. Louis, where they will remain until Tuesday evening. Besides Mr. and Mrs. Tinney the party will include Senator and Mrs. Thomas Rees, Mr. and Mrs. Frank T. Kuh and daughter Isabel, and the Hon. and Mrs. E. A. Salvey of this city; Mr. and Mrs. George Conover and daughter, Miss Louise; Mr. and Mrs. Harry Downing and Miss Eva Lancaster of Virginia, and Mr. and Mrs. W. L. Ray of Jacksonville.

#### LILLIAN MORTIMER.

A clergyman who recently visited the theatre in a large city where Lillian Mortimer was presenting her "Girl of the Streets," was so pleased that he forthwith wrote her as follows:

"My Dear Miss Mortimer: I witnessed your performance last evening and was agreeably surprised. I was always imbued with the idea that the modern melodrama could be likened to the yellow-back novel. If such be the case, I can assure you that I deem your play must be an exception. The story is one of remarkable strength and the moral that it draws is so convincing that it must make its influence felt, even upon the most depraved."

This play will be the attraction at the Grand opera house Monday, Aug. 29, for one night only.

#### TAKEN WITH CRAMPS.

William Kirmse, a member of the bridge gang working near Littleport was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The incident speaks quite highly of Mr. Gifford's medicines.—Elkader (Iowa) Argus. This remedy never fails. Keep it in your home; it may save a life. For sale by all leading druggists.

#### POLEY'S KIDNEY CURE.

Will cure Bright's disease. Will cure Diabetes. Will cure stone in bladder. Will cure kidney and bladder diseases. For sale at Obermeyer's Drug Store.

O. box 629, St. Louis, Mo. Send for testimonials. Sold by J. A. Obermeyer, City Drug Store.

READ THIS:

Jacksonville, Ill., Aug. 24, 1901.—For twelve years I have suffered from sweet diabetes and have spent hundreds of dollars with various doctors, with but little benefit. I was recommended to try a bottle of Texas Wonder; Hall's Great Discovery, and will cheerfully testify to the public that it did me more good than all other else put together and am altogether another man. I have persuaded many of my friends to try it.

JOHN R. DAVEY, Grocer, J. A. OBERMEYER, City Drug Store.

History is a standing rebuke to Democratic promises.

The contention that big crops are hard on the soil is a purely Democratic argument.

Thousands of western Democrats are looking for places where the fishing will be good the second week in November.

A passage in Scripture admonishes us to take no thought of the morrow. The Democrats plead with us to take no thought of yesterday.

Every argument made by the Democratic party in 1896 and in 1900 has been shown by the progress of events to have been delusive and erroneous. Every Republican promise has been fulfilled. That should mean something to the voter.

In 1896 the Republicans promised to establish the gold standard. The Democrats promised that if the gold standard were adopted there would be no more Fourth of July celebrations; for liberty would be dead and the spirit of imperialism would be upon us. There is instruction, as well as some amusement, in studying the fulfillment of these promises.

**DEMOCRATIC INSINCERITY.**  
"We are more fortunate than our opponents, who now appeal for confidence on the ground, which some express and some seek to have confidentially understood, that if triumphant they may be trusted to prove false to every principle which in the last eight years they have laid down as vital, and to leave undisturbed those very acts of the administration because of which they ask that the administration itself be driven from power."—President Roosevelt, in his speech of acceptance, July 27, 1904.

**THE PARTY, NOT PARKER, WILL RULE.**

The party and not the man! That was the keynote to Congressman Clark's address notifying Judge Parker of his nomination. Mr. Clark reminded Judge Parker that the man who served his party best gave best promise of good service to his country. This reminder may not have been entirely to the satisfaction of those who have praised Judge Parker as better than his party, but Champ Clark was right. The party is the ruling power, not any man, however great his position.

Government here is by parties, not by individuals. If Judge Parker is elected president the Democratic party will rule. The party has not changed. It is still the party of Bryan and Cleveland. It still holds to the free silver theories of Bryan and the free trade doctrine of Cleveland.

It has refused to learn from experience. It holds to the old free trade theories of the south before the war, when the planters had free labor and wanted free trade in everything else. Champ Clark is a typical Democrat and was a good man to notify Judge Parker of his nomination, because Clark is a Missouri Democrat who is not afraid to declare his views on public questions. He has repeatedly declared that his party would utterly destroy the custom houses of this country, not even leaving the foundation stones. He would abolish all tariffs and have absolute free trade with the world.

Mr. Clark is one of the most forcible Democrats in congress. He is one of the party leaders there and with a Democratic congress he would lead it in Democratic ways and pass a tariff bill that would go further toward free trade than did the Wilson bill before Senators Gorman, Smith, Murphy and Jones added its special protection features for favored industries. The Wilson-Gorman bill brought untold disasters to the industries and the wage-earners of the country, and 3,000,000 workmen were without work for two years, becoming tramps, begging for work to earn bread for their families.

But that experience, bitter as it was to the country and to the workmen, has not changed the theories of the Democratic party. It is still for free trade and free silver, and Judge Parker, while mildly expressing the hope that tariff revision could be made by his party without affecting the business interests of the country, does not go as far as did Mr. Cleveland in 1892, when he pledged his word that these industries should not be harmed. President Cleveland denounced the Wilson-Gorman bill as an act of perfidy and dishonor, but he allowed it to become a law.

—Mr. Clark's reminder to Judge Parker that the party and not the man rules, was timely. It blights the hopes of those who have thought that Judge Parker could be bigger than his party if elected president, but it is well that such delusions should be set aside in the beginning of the campaign, and all voters realize that it is the Democratic party; the party of free trade and free silver that seeks restoration to power.

**Wives Should Keep Young.**

A certain amount of social life is absolutely essential to all of us, to the old as well as to the young. A woman never grows so old that she ceases to enjoy the company of others, and generally the older she grows the more she enjoys it. It is always a pity to see a man fall into a state which he explains by saying, "Oh, we are getting old and don't care for so much variety in our lives." In the pure selfishness of his soul he always speaks of "us" and "we," as if it naturally follows that because he is getting antiquated his wife must keep pace with him in his decline. It is more credit to a husband to keep his wife young than to make her grow old. His actions and his habits necessarily influence those of his wife. Let him keep in touch with the world, and both he and his wife will be the better and the younger for it.

**Color Effect in Rooms.**

In discussing color as affecting room proportions the upholsterer gives the following general rule for the treatment of the long, narrow parlor met with in the average city house: "Do the room in harmonies of analogy or related colors of a light tone and, moreover, receding colors." Receding colors are those which contain blue in the ascendancy, while advancing colors contain red and yellow in the ascendancy. The article further states that even in a small or narrow room with northern exposure it is inexpedient to use warm colors. Such a room should be treated in light tones, gray preferred, and the deficiency in sunlight should be supplied through a warm tone in the curtains.

**ONE WOMAN AMONG THE THOUSANDS.**

We received a letter from Waycross, Ga., from a woman who had been troubled with female complaint for a long time, until she was reduced to almost a shadow. It affected her mind, she could not remember anything, would get confused and so nervous and irritable she could hardly sleep. She described her case as one similar to thousands of other women, and then ended the letter by saying she had gained 18 pounds last month and never felt better in her life, having no trace of her former troubles, slept well and ate her meals with a relish. She commenced the use of Dr. Gunn's Blood and Nerve Tonic just six weeks before she wrote the letter from which we copy the above. This tonic is in tablet form, and should be taken right after meals. It turns the food you eat into strong, rich blood, feeding the nerves and curing disease by making healthy flesh. Sold by all druggists for 75c per box, or 3 boxes for \$2. Pale, weak, thin people should use this Tonic. Sold by Lee P. Alcott.

**ELECTRIC BLOCK SIGNAL SYSTEM**

Intricacies of Automatic Device  
Provided for Safety of Traveling Public—Used on Alton Curves North of City.

The traveling public is but little aware of the many contrivances which are in use on the modern roads for their safety. The electric block signal is one of the most important which has been installed in the last few years. Such a service protects trains on the two large curves on the Alton north of this city.

The block commences at the Wash crossing and extends to the siding at Brown or Portuguese hill. The system is very complicated and one or two men are kept constantly inspecting and improving it. Semaphores are placed a few hundred yards from each end of the block. The engineer, by looking at these, can tell whether there is another train anywhere in the block or around the curve. On entering the block, if there is no train in it, the arm on the semaphores will drop. If the arm does not drop, the rules are that the train shall stop, send a flag man ahead, wait five minutes and proceed slowly under full control. The entire system is controlled by electricity and works automatically.

A battery pit is stationed at each end of the block. The rails are all wired together and connected with these batteries. Opposite the semaphores the wires run to a chamber at the bottom of the pole, which contains all the instruments. The wires connect with an instrument similar to a telegraph sounder. If an engine enters the block it short circuits the battery at the end of the block. This releases a small lever which shuts the current of fourteen Edison cells, which are kept in a cistern near the semaphores, through a small motor, which forces down the arm of the semaphores. By means of a line circuit carried on the telegraph poles the semaphores at the other end of the block is kept in connection. If an engine is in one end of the block and another enters the other end, or is anywhere between, this line circuit operates a clutch which throws the motor out of gear and the arms remain extended, thus warning the engineers. The system will work in the same manner whenever a rail is broken or misplaced, or any other rail disturbance.

On the main line of the Chicago & Alton the system is continuous. On the branch lines every curve and dangerous point is protected. Near Alton, where the traffic is heavy, the system is almost continuous. W. G. Daves is the supervisor of the Alton block signal system.

## RAILROAD NEWS NOTES

Lake Shore Road Will Have Four Tracks—Burlington Issues Pamphlets—Other Personal Items.

C. P. & St. L. engine 116 was taken to Springfield Saturday by Engineer Beck. The 117 will be out next week.

Train 48 on the Burlington carried an extra coach Saturday on account of the picnic at Girard.

Burlington train No. 48 on the Burlington St. Louis division narrowly escaped going through a bridge at Weiser's slough Saturday. The bridge had caught fire in some manner and was rapidly reaching an unsafe condition when the train came along. The engineer tried to stop, but the engine and two cars passed over the bridge before he could do so. The crew, after some hard work, extinguished the flames. If the train had been a few minutes later a serious wreck would have resulted.

All Wabash engineers have received the following bulletin: "Do not exceed five miles an hour over C. P. & St. L. crossing at Jacksonville Junction. Signed, L. W. Karnes, Trainmaster." A new crossing has been ordered and will probably be in place some time this week.

The Chicago & Alton section gang, under Thomas Flynn, has been ordered to clean up the yards here, preparatory to installing some of the new style pipe line switches.

The Wabash ran a special train of three coaches and a baggage Saturday on account of the soldiers of the Fifth regiment returning from camp. The train ran as second No. 3.

D. E. Campbell, claim agent of the Alton, was in the city Saturday to attend to some damage claims here.

Earl Taylor, foreman of the Wabash interlocker, will spend Sunday at Meredosia.

Alton Engineer W. Fitzgerald returned to work Saturday, after a short vacation.

The local office of the Burlington has for distribution some excellent publications to patrons expecting to make trips to any part of the country. The pamphlets are nicely printed on good paper and contain a large number of fine cuts of the country along that road. The booklets are: "California," giving an excellent description of and many scenes from that state; "Yellowstone Park and how to get there, and cost of tours"; "California, the country and its hotels"; "The West Nebraska Grazing Country"; "The Burlington's No. 1, Chicago & Denver Express"; "Custer Battlefield"; "Colorado; Its Scenes and Industries"; "Mines and Mining in the Black Hills"; "Little Journeys in the Black Hills."

There has been much comment in Alton circles of late owing to the numerous inspection of the road by the general manager and division superintendents. All are going over the road frequently, observing every department with minute attention. The object of the frequent tour of inspection is to promote safety. President Felton is very anxious that the Alton maintain its prestige as a safe road and has instructed the various

officers not to relax their vigilance for an instant. He wishes them to closely and frequently scrutinize every department and see that every possible precaution has been taken to prevent accident. He has enforced this policy for some months now and the lack of mishaps on the Alton is attributed in a measure at least to the thoroughness with which the officials are carrying out the wishes of the president.

The Wabash shops at Springfield are now running on the eight-hour schedule and will probably continue to do so until the end of the present month. The reduction of the working day has been the result of the lack of funds to maintain the nine-hour day. Now that the time limit has expired for the issuance of passes over the Wabash all of the employees that have considered a vacation as desirable and have taken advantage of the issuance of transportation are congratulating themselves.

The attendance at the meeting of the Brotherhood of Locomotive Firemen to meet in Buffalo next month promises to be unprecedented. Many of the engineers express their intention of going, but it is going to be a problem for engineers on the Chicago-St. Louis lines to get away. Already the call for engineers to help handle world's fair traffic excludes the probability of many getting away to attend the meeting.

The largest individual contract for iron and steel structural material placed in the United States in many years has been awarded to the American Bridge company by the South Side Elevated Railroad company of Chicago. It calls for the delivery of 64,000,000 pounds of material for use in the construction of the proposed stock yards and Englewood extensions of the overhead line, at a cost approximating \$5,000,000. The first delivery of material will be made within the next few weeks, to be followed by deliveries as the elevated roadbeds them.

A four-track road from New York to Chicago will soon be the boast of the New York Central management, according to an official of that company. The Lake Shore directors have authorized some extraordinary improvements on the section of the road between Buffalo and Cleveland, and large gangs of men have begun the reconstruction of the roadbed so as to admit of the laying of additional tracks, where there are now only two or three tracks. Five million dollars will be expended to carry out the plan of the New York Central management to make the Lake Shore an actual continuation of the Central's four-track system from New York to Buffalo. More than \$5,000,000 have been expended in Lake Shore improvements during the last two years and about \$1,500,000 worth of new equipment has been purchased this year.

Runners to the effect that C. A. Goodnow, general manager of the Alton, will resign will not down. He was interviewed recently by a Springfield newspaper man and denied the report, but since then it has been given out by reliable authorities that the resignation will be announced in a few days. No reason can be ascribed for his resignation.

T. W. Roberts has again secured employment on the Alton as cook for the bridge gang.

All new and nobby felt hats now on sale at Herman's.

## DINNER PARTY.

Mr. and Mrs. George Graff entertained a small company at 6 o'clock dinner at their home on East College avenue Saturday, in honor of Mrs. Graff's brother, Charles Ledford and family, of Atlanta, Ga. An excellent dinner in courses was served and the function was an enjoyable one in every respect. Those present were: Mr. and Mrs. Charles Ledford, Miss Lena May Ledford, Miss Isabella Ledford, Mr. and Mrs. J. J. Reeve, Miss Bessie Reeve, Mr. and Mrs. Charles B. Graff and Miss Fay Graff.

Elegant line of veillings expected in a few days at Herman's.

## EXTENSIVE IMPROVEMENTS.

A. J. Hoover has completed some extensive improvements on his wall paper store on West Morgan street. The doorway has been changed to one side and an extra large display window constructed. A hard wood floor has been laid. A new ceiling has been handsomely decorated by hand and the walls are in green. The room has also been enlarged, thus affording better facilities for handling trade.

## Thousands of Pairs of Topsy Stockings

Have been sold over our counters, and we are selling more of them each season than we did the preceding year. There are good reasons why customers come back to us for more Topsy Stockings. It's because Topsy Stockings wear well and are dyed a deep, glossy black that improves with washing. The makers of Topsy Stockings keep the line "up-to-date" with all the novelties from the lace and gauze lises to the heavy ribbed and fleeced stockings. We guarantee FULL SATISFACTION to men, women and children wearing Topsy Stockings.

## ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff grow. It gets at the root of the hair, where it keeps the vitality; causing itching scalp, falling hair, and finally baldness. With Newbro's Herpicide hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c for sample to the Herpicide Co., Detroit, Mich.

## METHOD IN THE HOME.

It Will Greatly Help to Be Systematic in All Your Work.

In all your work be systematic. Have a time and a place for everything. Adopt the best methods. Teach the children early to help by the regular performance of daily tasks. Require order and neatness, beginning with the "wee tottler."

Cook simple foods—few kinds at a time, but always deliciously prepared and daintily served. Use substantial foods and fruit, avoiding pastries and highly seasoned dishes. Vary the bill of fare. Insist upon the best home-made bread, the more good brown or oatmeal bread the better.

Make clothing simply, using good dark, fadeless material for outer garments. Have all the conveniences about the house you can afford, but never live beyond your means. Have none but durable and useful furnishings. Discard all trappings and draperies that are simply for ornament.

Use plenty of water internally and externally. Good food, pure water, fresh air and sunshine are cheaper than doctors' bills and superior to any patent medicine.

For success study your housekeeping as you would any other business. Make of yourself a ray of sunshine under all circumstances, remembering that a happy home is the only paradise of earth.—Exchange.

## NOTION CABINET.

A Convenient Little Arrangement to Have in the House.

Of all the little conveniences about the house that the ingenious or handy woman has contrived I find none more often called into use than my "button cabinet," or possibly "notion cabinet" would be a more appropriate name. I took a board a little over a foot long, eight inches wide and one-half inch thick. To this I nailed five cigar boxes with the lids fastened on and the front side taken out. Two of these boxes are two inches deep, and the other three are one and a half, but the depth is immaterial. Then I took other boxes and made drawers to fit in those I had nailed on the board. I bored a hole through the board above the top boxes by which to hang it on the wall. I bored two holes in the front of each drawer an inch and a half apart, through which I put cords and tied on the inside of the drawers to serve as handles. I partitioned the drawers into different sized spaces to accommodate the different kinds and different sizes of buttons and the numberless little things that every woman has to keep in some place. I took the paper off the boxes and painted the whole thing, and it is not unsightly. The toy drawers or bureau of today may be utilized for this cabinet, but I made mine when toy stores were at a distance.—Housekeeper.

## KITCHEN HELPS.

Emery powder will remove any ordinary stains from ivory knife handles.

Brown paper moistened in vinegar will polish your tin until they shine like silver.

Kitchen towels should be washed out every day after the dinner things are washed and boiled at least once a week.

To remove the smell of onions or fish from a frying pan put a little vinegar in it directly after using and place it over the fire for a little while.

After using fat for deep frying turn it into a bowl of hot water, stir well and set aside to cool. When cold, the clarified fat can be removed in a cake from the top of the water.

To remove stains from a porcelain saucepan nearly fill with water in which a tablespoonful of borax has been dissolved and let the water boil away. If the stains resist this treatment try rubbing the spots with a wet cloth dipped in borax.

## To Wash Chamolis.

A housewife of experience says that chamolis can be washed beautifully if the following instructions are followed: Prepare a lather with warm water and melted soap in the same way as you would for linens and squeeze the leather well in this. If very much soiled and not clean after the first washing, repeat the process in another soapy water. If a little liquid ammonia is added to the water it will be a great aid in the washing, helping to draw out any grease and dirt. Then for rinsing use soapy water again, exactly the same as that used for washing. It will keep the leather softer than if it were washed in clear, warm water. When the leather is quite clean and has been through the last soapy water put it through the wringer or squeeze out the water with the hands. Then hang it up to dry and rub occasionally with the hands. When quite dry the leather may be pressed with a cool iron, after which it should look like new.

## The Woman Beautiful.

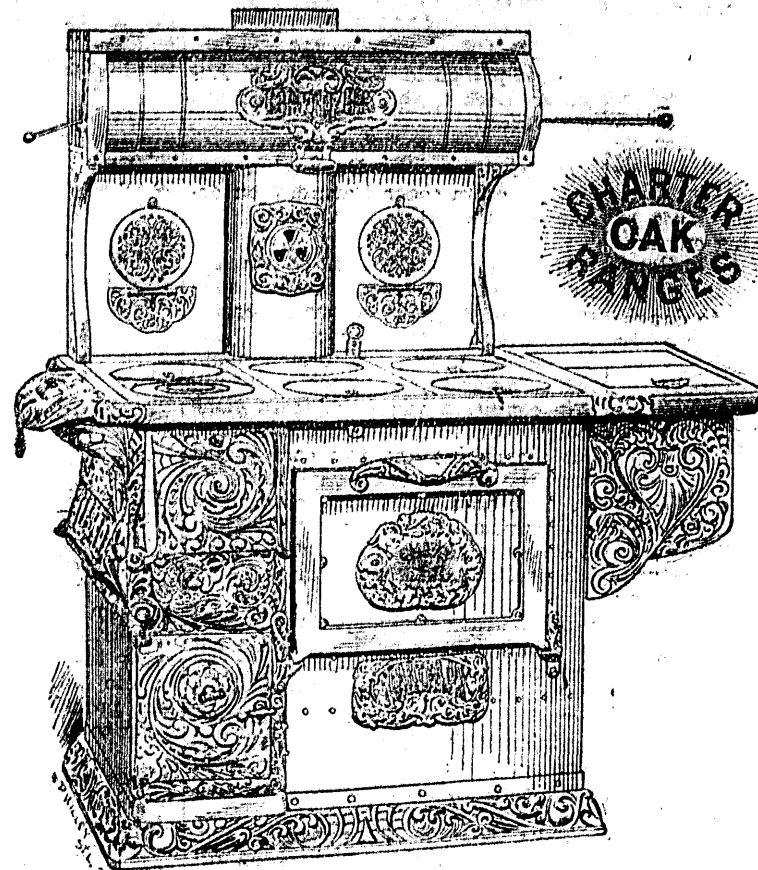

Let every woman strive for a beauty which all will recognize as being genuine through and through. That which is superficial will fade and pass away, leaving a load of disappointments and unhappy memories, while the true beauty will prove a "joy forever." She who possesses this gift will be blessed. And yet it is not a gift, for beauty represents the ultimate result of sincere striving for the best in life, for the noblest in character, sweetness of grace and purity of soul. Every woman may possess these divine attributes if she will. The way is open, and mankind will smile approval if she chooses to become the woman beautiful. The "woman who thinks" will shape her life to this course, and will call to her aid the supreme source of strength and wisdom—Henry P. Harris in Madame.

Not to the one who makes the largest purchase, not to the one who buys a certain amount, nor to the one who buys at all: Every adult person living in this community who will call at our store will be given one ticket, entitling them to one chance to obtain this "best of all" cooking apparatus free of all cost. You are not required to trade one penny's worth. Only call and give us your name and address. No one should call for more than one ticket. In case they do, their tickets will be invalid.

## WE DO THIS

FIRST—Because we want to show our appreciation of the patronage of our customers and friends.

SECOND—As an inducement to the general public to come in and see what our stock consists of, and what the largest and most up-to-date Hardware Store in Illinois looks like.

You have all to gain and nothing to lose. Tickets are ready for distribution now. The drawing will take place in front of our store on Sept. 17th at 3 p. m. Only such tickets as are at the drawing and in the possession of the party to whom it was issued will be valid. In other words, if a certain number draws the Charter Oak and the ticket with that number on it is not presented within 30 minutes it will be drawn for again. When you come to our store for your ticket we will explain how it is to be determined and to whom the Charter Oak will be presented. Remember this is an extra fine range, with every modern improvement, such as oven thermometer, &c, and sells regularly for \$58.00.

### HOUSE NAMES.

The following was written by Bernice Glenn for the Pilgrim for September:

The summer homes of many well known people are known more by their title than by the railroad station near them. The Vanderbilt homes are called Deepdale, Shady Point and Idle Hour; John Jacob Astor's home is known as Ferncliff on the Hudson; Hamilton Fish calls his place Rocklawn; Lillian Bell's pretty place on the Hudson is called Applethorn, and Robert J. Burdette's home in Passaic is Sunny Crest.

Suggestive names are Meadow Brook Farm, Dreamwood, Rock Ridge, Hillcrest, Allaire, Beechmere, Rosemead, Sunny or Shady Lawn, Fair View, Shadeland, Lonely Wood, Bonnie Brook, Ivy Place, Shady Nook, Fernwood, Stoney Brook, Greenlodge, Grassmere, Red Roof, Hazelhurst, Point Pleasant, Meadowsdale, Sunny Bank, Rocklyn, Glenmore, Woodleigh, Inavale, Tanglewood and Sunset Lodge. Killcare and Lazy Lodge are, of course, only permissible for a summer home while the Indian phrase, Wei-a-wi-ben, meaning House of Peace, is beautifully suggestive of all the year home.

Of course there must be music at the christening and all will join, in at least one verse of "Home, Sweet Home," at the close. When moving into a new home the Germans repeat this little prayer: "Take from us, O Lord our God! all heartaches and homesickness and all trouble, and grant us health and happiness where we kindle our fire." Sections may be read or recited from The Hanging of the Crane and part of the blessing of the cornfield from "Hawatha," by Longfellow and the "Dream of Home," by Moore.

### STATIONS OF THE CROSS

Beautiful Gift of George Eberhardt to Church of Our Savior—Special Service This Evening in Charge of Franciscan Monk

The Stations of the Cross, given to the Church of Our Savior by George Eberhardt, have been put in position by the workmen brought here for the purpose and present a beautiful and imposing appearance. Aside from their significance they add a beautifying principle to the church interior which can hardly be overestimated.

The Stations of the Cross are a series of images or pictures, representing different events in the passion of Christ, each station corresponding to a particular event. Usually they are ranged round the church, the first station being placed on one side of the high altar, the last on the other. The stations are among the most impressive of Catholic devotions, and are to be found in every church. Sometime, also, they are erected in the open air, especially on roads leading to some church or shrine. The devotion arose first in Jerusalem among the Christians who dwelt there, and who were filled with veneration for those sacred spots, which were sanctified by the sufferings of our Divine Redeemer.

From the Holy City, this devout exercise was introduced into Europe, and when in 1342 the Franciscans established their home in Jerusalem and undertook the custody of the sacred places of the holy land, the devotion spread throughout the world. It is a simple, yet wonderfully efficacious way of bringing home to one's self the sufferings and death of Jesus Christ. It consists in meditating, according to individual ability, on the particular phases of our Lord's passion represented by each station. In all there are fourteen of these.

The first pictures to the mind the Savior of the world, scourged, crowned with thorns and unjustly condemned to death. In the second station a start is made on the sorrowful journey to Calvary; our Divine Savior, mindful of us and of our salvation, receives the heavy burden of the cross and goes willingly to die for men. The third station brings to mind our Lord, weakened and exhausted, his flesh torn by scourges, his head crowned with thorns, falling the first time under the weight of the cross. The fourth station represents the meeting of the mother and Son, with all its attendant sorrow and anguish. Physically exhausted as Jesus Christ was by the long continued sufferings of body and mind, his executioners now began to fear that death would deprive them of the satisfaction of crucifying Him. The fifth station, therefore, shows us Simon of Cyrene, compelled to carry the cross of Christ and assist Him on the journey. Among the multitude that pressed on to the place of execution were many holy persons. In the sixth station we have one of these, named Veronica, who, seeing our Lord faint and weary, presented Him with a cloth with which to wipe the blood and perspiration from his face. Weak and exhausted beyond endurance, the seventh station shows Him falling the second time beneath the cross, but rising at once, he seeks to console the faithful souls that follow after Him. Standing before the ninth station, we find our Lord, streaming with blood and unable to go further, falling for the third time under the cross. Finally, urged on by the cruelty of the executioners, He arrives at Calvary. The tenth and eleventh stations mark the preliminaries to the crucifixion. The garments are stripped from His bruised and torn flesh and He is fastened to the cross with nails. The consummation of Christ's sacrifice comes with the twelfth station. After three hours of agony on the cross, consumed with anguish, He abandons Himself to His heavenly Father and dies. But two stations remain, and these commemorate the taking down of the body from the cross amid the silent anguish of the disciples, and the placing of it in the tomb, hewn out in the rock.

The stations will be blessed and erected by Very Rev. Anselm Mueller, a Franciscan monk, rector of St. Francis college at Quincy, who will preach in both English and German this evening at 7:30 at the Church of Our Savior. Everybody is cordially invited.

THE WORTH OF A YOUNG MAN.

The following interesting facts concerning young men have recently been published and give a graphic outline of their worth:

"Over 2000 boys become young men every day in our nation."

"There are 12,000,000 young men in the United States."

"In line, twelve abreast, they would form a column 2000 miles long."

"For each to be idle one week is equal to over 200,000 being idle one year."

"Two cents daily from each would send 300,000 young men to college."

### AGAINST TREATING

"Excuse me Please" the Insignia of Organization Recently Incorporated in Illinois.

Chicago, Aug. 27.—A button on which are two palms turned outward, and the inscription, "Excuse Me, Please," is to be the insignia of the Anti-Treating league which was incorporated in Springfield, and has as its purpose the promotion of temperate living. "We have begun quietly," said Arthur B. McColl, one of the incorporators, "but we already have 300 members. If the society's growth during the coming year is proportionate to its increase since its inception, we shall have 20,000 members at the end of that period. There will be some of the features of the secret lodge about it; we shall have our ritual, our method of mutual relief in time of distress and our grip. But we shall quietly and without ostentation, not looking upon the habit of drinking as wrong, but merely as impracticable. The league will have no church affiliation, and its only purpose will be to promote temperate living.

"While we will not regard drinking as a sin, we will preach that it is sinful to suggest to another man that he drink, for he may be weaker than you, and unable to resist the vice. Individuals will be free to regulate their own drinking as they choose."

### DEATH RECORD

RYAN.

Patrick Ryan, one of the oldest residents of the city, died at his home on East Lafayette avenue Saturday at 12 o'clock midnight, at the age of 82 years. Death was due to paralysis, of which he had several strokes, the last being on Thursday, from which time he was in an unconscious condition till his death.

Decensed was born in County Tipperary, Ireland, in 1822, and in 1854 he came to this country and since that time had been a resident of this city. Mr. Ryan was widely known in this vicinity, where he had spent so many years of his life, and ever bore the name of being an honest and industrious man. His freedom from the use of spirituous liquors probably prolonged his life beyond the limit set for most men. He was engaged during his active life as a laborer for the railroads and in excavation work.

Mr. Ryan is survived by his aged wife and eight children, as follows: Mrs. Thomas Hill, of Tacoma, Wash.; Mrs. J. F. Fitzpatrick, of Freeport, Iowa; John Ryan, of Clinton, Ill.; Pat Ryan, of Galena; Miss Nellie Ryan, of Freeport; Martin, James and M. J. Ryan, of this city. A number of the children were at his bedside at the time of his death. Funeral services will be held Monday morning.

### INCREASE OF CRIME.

Few social questions are asked more frequently than, what is the increase of crime? The national census bureau is seeking an answer to this inquiry. It is undertaking to secure a record of all the persons who are sentenced to the various jails, penitentiaries and other prisons in the United States during the year 1904. The wardens of the state prisons and the sheriffs of the counties are being requested to act as special agents, to report certain facts concerning every person delivered into their custody. Some counties have not been heard from. In some perhaps there are no jails, in others perhaps the local jails are no longer used, in still others the sheriffs have possibly neglected the matter. But the records of the census bureau and the resulting statistics will not be complete until all are heard from, and it is hoped that the pressure of other business will not cause the sheriff of any county to block this most important inquiry.

### JOHN LONERGAN ILL.

John Lonergan was taken to Our Savior's hospital Saturday morning in a serious condition. At a late hour this morning he was reported as very low and the chances of recovery appear to be very slight.
